

My husband and I listen to K-Love in the Golden, Colorado area. As it is right now. We cannot get a signal in our home, but we do get a signal in our vehicles. If it were to change I am afraid we wouldn't even get a signal in our car. We need as strong a signal as possible. K-Love has been a very important part of my life, my husbands life and so many people we know. We are all in drug and alcohol recovery and it lifts our spirits.
